FOREWORD

The *Directory of Juvenile and Adult Correctional Departments, Institutions, Agencies and Paroling Authorities* in its 47th year continues to provide unique and important facts to the correctional community. Organizational overviews explain the structure of correctional systems in each jurisdiction. State, federal and Canadian systems, listing institutions and administrative staff as well as programs, populations, capacities, cost of care, age limits, personnel counts, and probation and parole systems, are identified.

The statistical summaries in the beginning pages of the *Directory* encapsule fiscal, personnel, populations and related statistics covering the adult and juvenile systems as of June 30, 1986. In some cases, the editor has had to interpret or combine information provided. For detailed information beyond that given in the summaries, please contact the public information officer for the department in question.

The personal locator is another useful aspect of this *Directory*. An alphabetized listing of all individuals noted in this publication, the locator simplifies locating an individual when the employing state is not known.

Two other directories published by the Association round out a complete guide to the correctional system. The *1986-88 National Jail and Adult Detention Directory* provides vital information on the nation's jails and adult detention centers. The *1985-86 Probation and Parole Directory* provides federal, state and county information on adult and juvenile probation, parole and aftercare services in the United States and Canada.

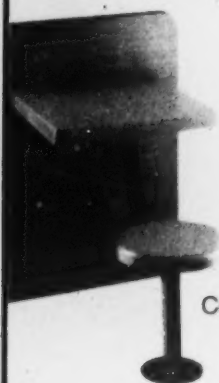

Corrections' volatility and political influences, especially following an election year, make it impossible for the *Directory* to be up to date at the time of publication. However, we make every effort to keep a current *Directory* in the research department; please do not hesitate to contact the editor if you need information. We welcome any comments you might have for improving any aspect of this directory.

The Association extends a special thank you to the participating corrections officials and staff who provided the information necessary for this publication. Their generous spirit of cooperation and professional concern make possible the publication of this important directory each year.

MEETINGS SCHEDULE

Each year the American Correctional Association sponsors two major meetings—the Winter Conference in January and the Congress of Correction in August.

Both annual meetings provide a forum for setting national correctional policy and goals and for focusing on the challenges to the corrections field. Both also offer workshops that are as varied as all the sectors of the Association's membership and that appeal as well to non-ACA members in the corrections field and also to many interested citizens. In addition, tours of local correctional facilities are available, and there are exhibit booths displaying the latest correctional products and services.

The Congress also offers technical workshops and professional seminars. The prominent speakers at these workshops are leading experts in the field, and the tone is positive, proactive, and relevant. These professionals address the current problems, new developments, and major issues in the field from an active, dynamic viewpoint.

By participating in these annual meetings you can support the continued professional growth of the ACA and also strengthen your professional relationships with decision makers from the field.

From master planning to facility activation,
Kitchell cuts time and costs, without cut-
ting corners.

Kitchell

A \$90,000 per cell price tag nearly brought the California prison construction program to a halt in 1983. That's when Kitchell CEM, using computerized cost models, stepped in to analyze all aspects of the new California Medical Facility South.

After examining first cost, staffing, equipment, schedule and life cycle costs, Kitchell demonstrated that it was possible to build a functional, code-approved prison and save over \$45,000 per cell.

Then, we went ahead and built it. And in one year's time, from start to initial occupancy.

The California Medical Facility South, safe, solid, and secure. It's the only way we build.

How to avoid a flood of problems.

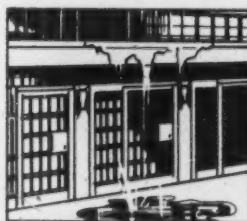

Officers must transfer inmate.

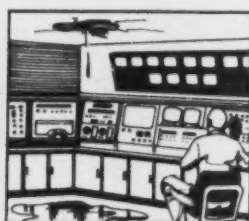

Locate janitor to clean cell block.

Plumbing repairs might be needed.

Lower cell blocks could be damaged.

♦ Adjacent operations possibly affected.

THE FLOODBUSTER™ PNEUMATIC FLUSH DISABLER **New from Bradley**

When a single angry inmate blocks his toilet with an object and pushes the flush valve repeatedly, the result is often more than a single inconvenience. This fairly common act of criminal mischief can cause a chain reaction that ends up costing you a great deal of time, labor, and potentially great property damage.

Not only does a flooded toilet mean using prison officers to transfer the inmate to another area and finding a janitor to clean the cell block, it may also cost the services of a plumber to fix damaged pipes and ceiling leaks. And if your institution is multi-story, lower cell blocks could be damaged by water as well. Even worse, if the flooded facility is in an administration building, adjacent operations including computer rooms or courtrooms could also be seriously affected.

remarkable system is pneumatically activated by flowing water. The nonelectrical flush valve disabling system features a sensor device that prevents the toilet from being flushed when an overflow condition exists. So major flooding is prevented. Because the flooding sensor is not visible or accessible to inmates, the system is vandal-resistant, too. And it can be serviced easily from the chase.

Specify the Bradley Floodbuster™ Pneumatic Anti-Flood Flush Disabler today. It could save you countless headaches tomorrow.

PRISONERS UNDER DEATH SENTENCE, BY JURISDICTION, AS OF JUNE 30, 1986

Note: For the period covered, there were no statutory provisions for capital punishment in Alaska, Hawaii, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, New York, North Dakota, Rhode Island, West Virginia and Wisconsin.

Notes:

1. AR—Act 774 of 1983 changed method to lethal injection, with clause allowing those already under death penalty the option of electrocution.
2. MT—Individual has choice of manner of death.
3. NH—Legislature passed and signed by governor making lethal injection the manner of execution, effective 1/1/87.
4. NY—On July 1, 1984, the Court of Appeals found the New York State death sentence unconstitutional. The only sentenced prisoner on death row was then removed from the condemned unit.
5. OH—Legislation is pending which would change method of execution to lethal injection.
6. PA—As of Nov., 1982, sentenced prisoners were taken out of general population and put into Administrative Maximum Custody.
7. FBP—Manner of execution is in accordance with laws of State in which Federal sentence is imposed. The sole offense for which capital punishment is available is Aircraft Piracy, 49 U.S.C. 1472 (i). S. 1765 would amend Federal criminal laws to provide procedures to utilize the death penalty for other offenses, such as homicide, where it is now authorized but cannot be used because of procedural inadequacies. Legislation is supported which proposes the death penalty for those inmates serving life sentences who murder while incarcerated.

ORGANIZATION AND ADMINISTRATION

In Alabama, adult institutions are within the Department of Corrections; juvenile institutions are within the Department of Youth Services.

The State Board of Pardons and Paroles paroles adults and provides a statewide system for adult probation and parole services.

Release dates for juveniles are determined by the Juvenile Court having original jurisdiction over them. The Court also provides juvenile probation and aftercare services; probation is financially subsidized by the Department of Youth Services.

ADULT INSTITUTIONS

Persons of the age 16 or over who are convicted of a felony are committed to the Department of Corrections for a minimum sentence of one year and one day. Youthful offenders (under the Youthful Offender Act) are also committed to the Department.

JUVENILE PROBATION AND PAROLE SERVICES

Probation and parole services are provided for juveniles by the Juvenile Court. The Department of Youth Services establishes standards for certification of probation officers and subsidizes county probation departments so that, in this way, services are provided by the state financially (50%) and the counties (actual manpower).

ORGANIZATION AND ADMINISTRATION

The Department of Corrections is headed by a Commissioner of Corrections reporting to the Governor. The state is administratively sectioned into three regions: Northern, Southcentral and Southeast, each managed by a Regional Director having authority over all corrections functions within their respective region.

Adult probation and parole are supervised by probation officers of the Department of Corrections. The Executive Director of the Board of Parole reports to the Commissioner of Corrections. Regional Administrators for probation/parole services report to their Regional Director.

The Board of Parole is responsible for adult parole release; the board reports to the Governor.

The Division of Family and Youth Services, under the Department of Health and Social Services, provides institutional and probation field services for juveniles separate from the Department of Corrections. There is no juvenile parole/aftercare in the state.

ORGANIZATION AND ADMINISTRATION

The State Penitentiary Board was originally established through Act 1 of 1943. Act 50 of 1968 reorganized the State Penitentiary as the Arkansas Department of Correction and created two major boards: The Board of Correction and the Board of Pardons and Paroles.

The Board of Correction consists of a Chairman, a Vice Chairman, a Secretary, two regular members, a non-voting ex-officio member who represents the Commission on Community Based Rehabilitation and a non-voting advisory member who is actively engaged in law enforcement. Members of this Board are citizens of the state and are appointed by the Governor to staggered five-year terms.

The chief executive of the Department of Correction is the Director. There are three main areas of responsibility: Institutional Services, Field Services, and Health & Correctional Services. Major divisions are Business Administration, Maintenance & Construction, Legislative & Public Relations, Compliance, Research, Planning & Management Services, Internal & Classification Affairs, Chaplaincy Services, and Information System.

The Board of Pardon and Paroles is an independent board reporting only to the Governor.

Adult probation services are provided by the Adult Probation Commission, created in 1983 by Act 151.

Juvenile institutions are the responsibility of the Department of Human Services, Division of Children and Family Services. Juvenile services come under the jurisdiction of the county courts, except where additional services are provided by contractual agreements with the Division of Children and Family Services through a network of community-based centers throughout the state.

Del Norte Perimeter Systems show you what's happening and where, instantly.

The new Del Norte map annunciator system combined with the CIRCE or SP 2000 alarm processor gives you total perimeter control.

The system uses seismic geophone sensors — either fence-mounted or underground — and/or infrared beams to detect possible intruders or breakouts. The display and monitor system provides visual and printed records on all alarm information.

And the map displays come in both

wall-mounted and remote mobile units for full versatility.

Call or write for details on Del Norte perimeter systems. Let us show you what's happening with the latest from Del Norte.

ORGANIZATION AND ADMINISTRATION

In 1977, the Department of Corrections was formed for adult corrections, retaining the same sentencing system as it had as a division of the Department of Institutions.

The Division of Youth Services, under the Department of Institutions, provides institutional and aftercare services for juveniles.

The Board of Parole, an independent agency, grants parole to adults only. Parole supervision is administered through the Division of Community Services. The Juvenile Parole Board is independent.

Adult and juvenile probation services are a function of the Colorado Judicial Department.

ADULT INSTITUTIONS

Commitments (of the age 16 or above) to the Department of Corrections are adjudicated in adult court as felons or misdemeanants and sentenced to a definite term having a fixed minimum and fixed maximum sentence. Sex offenders may be sentenced to an indeterminate term of from one day to life.

4½FM-ICS SECURITY HINGE

The Hinge That Holds! Even under attack, these specially designed hinges will withstand many heavy blows and keep the door from failing.

The 4½FM-ICS is an investment-cast, full-mortise hinge for use with hollow-metal doors and frames. On the back of each leaf is an integrally cast stud, approximately ½" x ½", which extends into the door and frame. This anchors the hinge so firmly in place that it will withstand over 100 direct blows with an impact of 200-ft. lbs. each—which exceeds testing requirements proposed by NAAMM and ASTM.

This is an extra heavy hinge with a concealed, non-removable pin. It is ideal for heavily used doors, and the hospital-tip design gives it an attractive, streamlined appearance. Screw holes are located to conform to ANSI standards.

JUVENILE INSTITUTIONS AND SERVICES

Any person under 18 years of age who (1) has been convicted of a felony or misdemeanor, and is adjudicated delinquent; or (2) receives a second and subsequent adjudication of ungovernability (persistently disobeys parents/legal guardians . . . beyond their control) is committed by the Judge to the Department of Health and Rehabilitative Services. Commitment is for an indeterminate period of time until discharge by the Department or 19 years of age, whichever occurs first.

The Children, Youth and Families Program Office is responsible for the development of goals, objectives, standards, rules and policies by which to plan, monitor and evaluate all dependency and delinquency programs. Services are administratively organized into 11 districts, each of which is under the line of authority of 11 departmental administrators.

ORGANIZATION AND ADMINISTRATION

Under the Department of Corrections, the Facilities Division is responsible for adult offender institutions (state and county) and transitional centers (work release, pre-release, and adjustment centers) and the Probation Division for services on the state and county level (field supervision, Probation/Restitution/Diversion Centers).

The Board of Pardons and Parole is an independent agency which reviews adult parole cases and provides field parole supervision. It is also the only state agency vested with the power to grant clemency.

Under the Department of Human Resources' Division of Youth Services, juvenile institutions, parole and the majority of probation services are provided. In a few counties, intake and probation services are provided by county-operated and financed juvenile courts. In several counties, these responsibilities are shared by both Division of Youth Services staff and county staff.

JUVENILE INSTITUTIONS

*Original jurisdiction in juvenile cases is at the District (Magistrate) Court level. These courts cannot commit directly to an institution, but commit instead to the **Department of Health and Welfare**, with or without a recommendation for placement. The Department then makes placement decisions regarding youth committed to the department's custody. A youth is under the purview of the juvenile code up until the age of eighteen, although the department may maintain jurisdiction of a committed youth up until the age of nineteen. The maximum age of jurisdiction by the department was reduced from 21 to 19 with the enactment of the amended Youth Rehabilitation Act on July 1, 1985.*

The department may not commit status offenders or misdemeanants to the State Youth Services Center.

ADULT INSTITUTIONS

Adult felons with sentences of one year or more are committed to the adult institutions of the Department of Corrections. As of July, 1983, misdemeanants (those with a sentence of less than one year) may not be sentenced to the Department.

Sentences for crimes committed prior to February 1, 1978 were indeterminate sentences. Newly prescribed penalties are determinate sentences, followed by periods of mandatory supervised release for from one to three years, depending on the classes of offenses. Conversion of remaining indeterminate sentences to definite release dates is done by the Prisoner Review Board.

A unit of the Bureau of Inspections and Audits of the Department provides training and advisory services to all county and municipal jail facilities. It is also responsible for inspections of all county and local jail facilities.

ADULT PAROLE BOARD

The Indiana Parole Board consists of five full-time paid members appointed by the Governor. The Board grants paroles to indeterminate sentence prisoners at the expiration of their minimum term and also acts as the Governor's Clemency Commission. Prisoners serving life sentences are eligible for parole consideration after serving 20 years if the offense was either first or second degree murder and after 15 years for any other offense, which resulted in the sentence of life.

ADULT AND JUVENILE PAROLE SERVICES

Adult and juvenile parolees are supervised by the Parole Services Section of the Department.

ADULT AND JUVENILE PROBATION SERVICES

Probation services for both adults and juveniles are administered at the county level under the supervision of the Judicial Conference of Indiana, an organization consisting of all of the state's full-time judges. The Department of Corrections has no supervisory or administrative authority for probation effective January 1, 1981.

Probation officers are county employees directly supervised and employed by the presiding judge in the community. The Judicial Conference of Indiana has responsibility for administering the examination for prospective probation officers, and for conducting educational and training programs for probation officers.

The State Court Administrator collects and maintains probation data.

ORGANIZATION AND ADMINISTRATION

The Department of Corrections, responsible for adult offenders, is divided into four divisions: the Division of Correctional Institutions; the Division of Community Correctional Services; the Division of Administration, and the Division of Prison Industries.

The Department of Corrections through the Division of Community Correctional Services provides adult parole and probation services through eight judicial districts.

The Board of Parole, an independent agency reporting only to the Governor, reviews adult felony cases of the state correctional facilities.

Juvenile correctional facilities are contained within the Department of Human Services. Juveniles are released (paroled) upon the order of the committing court, and are supervised upon release by the Department's Bureau of Adult, Children and Family Services. The county court retains jurisdiction of these youth, and the court must order any change in placement.

Juvenile probation services are provided by judicial districts throughout the state.

ORGANIZATION AND ADMINISTRATION

Louisiana's correctional system is (by 1983 Legislative Act 97) contained within the Department of Public Safety and Corrections (DPSC). The Secretary of the Department is appointed by the Governor and is responsible for both adult and juvenile programs in Corrections Services along with other major duties involving the entire Department.

The Board of Parole grants parole to adults committed to state correctional institutions. Juveniles are paroled by the committing judge, who sets the parole date for juveniles placed in state training schools.

The Probation and Parole Division, supervises adult parole and probation.

The Office of Juvenile Services is composed of three divisions: *Evaluation and Placement*— conducts diagnostic evaluations on both an outpatient basis through contractual arrangements and at the Juvenile Reception and Diagnostic Center as well as placement into appropriate residential treatment or correctional facilities; *Youth Services* — provides intake, probation and aftercare services, delinquency prevention programming and administration of the Interstate Compact on Juveniles; *Institutions* — operates four correctional training institutions.

what's so special about this telephone?

everything when it comes to communications & emergency alert

Rauland TELECENTER provides instant 2-way communications between administrators and guard stations. It monitors cells or cell blocks on a selective basis. It provides visual and audible alert in emergency situations: the Administrative telephone readout flashes and indicates the emergency location; a repetitive tone sounds the alert; at the push of a single button the administrator communicates instantly with the calling station.

GRAPHIC DISPLAY AVAILABLE

The entire layout of your facility may be viewed on a graphic display panel which indicates sources of incoming calls. This is one of a number of desirable options designed specifically for correctional security. A Telecenter Specialist in your area is ready to survey your facility and recommend the proper system for your needs. Write or call for full information.

JUVENILE SERVICES

Juvenile institutions, intake, probation, and aftercare (parole) services all come under the jurisdiction of the State Department of Health and Mental Hygiene's Juvenile Services Administration. All children under the age of 18 who are committed by the Courts are sent to the following institutions for indeterminate sentences. At the time of commitment, the Juvenile Services Administration assigns an aftercare worker to the case. It is his job to prepare the community for the child's return as well as help the institution prepare the child for eventual release back into the community. The date of release is determined by the institutional staff and the aftercare worker who together make their recommendation to the courts for final approval.

INSULGARD IC SERIES DETENTION GLAZING MATERIALS & SYSTEMS

Conner Correctional Center, Hominy, Oklahoma

INSULGARD Systems and LEXGARD® laminates...performance plus architectural design versatility for detention facilities. Independent testing has shown that LEXGARD laminates resist the abuses of physical and thermal attack. LEXGARD laminates applied alone in detention facilities provide these protection advantages economically while avoiding the delamination and costly glass breakage replacement problems associated with glass-clad polycarbonate laminates.

Add the high performance of LEXGARD laminates to the INSULGARD double and triple glazed units and the result is a versatile component system.

JUVENILE INTAKE, PROBATION AND AFTERCARE

The decision to put juvenile offenders on probation instead of institutionalizing them is made by the Court, based on the recommendation of the juvenile counselor. The Intake, Probation and Aftercare services are provided by juvenile counselors within each region. The State (including Baltimore City) is geographically-broken down into ten regions; the Supervisors administer the services for their region of the state. They are responsible to the Assistant Director for their respective regions.

CELL CHECK

a correctional facility electronic security system from Simplex

From years of experience, we understand your concerns about reliability, operational flexibility, service and perhaps more than anything else today - your responsibility to protect your guard force and facility population.

CELL CHECK responds to those concerns with -

- Alarm Control
- Fire/Life Safety
- Emergency Communications
- Cell Control
- Access Management
- Guard Tour Supervision/Reporting

CELL CHECK offers solutions to correctional facility electronic security problems. For example, CELL CHECK'S exclusive, interval timed guard tour program provides hardcopy printout each time your guard checks into a tour station. The program automatically triggers an alarm if the time interval between stations is too long or out of sequence - An important feature for liability protection.

**So, check into CELL CHECK
and GO SIMPLEX SAFE.**

ORGANIZATION AND ADMINISTRATION

Adult institutions and the Adult Parole Board come under the jurisdiction of the Department of Corrections. Adult parole and felony probation services are administered by the Bureau of Field Services within the Department.

Misdemeanor probation services are handled by District Courts throughout the state.

The Office of Children and Youth Services (juvenile institutions) and the Youth Parole and Review Board are within the Department of Social Services.

The administration of juvenile probation and aftercare is the responsibility of the state, the court administrator and the county levels of government. The Office of Children and Youth Services is required to provide consultation and assistance to juvenile probation workers.

The Juvenile Courts may commit youth to the Department of Social Services for treatment services, which may include aftercare. These juveniles are subject to the Youth Parole and Review Board.

ADULT INSTITUTIONS

Any individual convicted of a felony and sentenced to a term exceeding one year is committed to the Department of Corrections. Persons under 18 whose juvenile status has been waived and who are convicted of a felony and sentenced to a term longer than one year also come under the Department's jurisdiction.

Before you invest in body armor, ask yourself: why is this one the American Policemen's most popular?

If you're thinking of purchasing body armor, your first question is: which one?

The answer lies in another question.

Why is it American policemen would rather purchase Second Chance than any other body armor? And this in a country that produces over a dozen different choices of other body armor manufacturers?

NO OTHER ARMOR MANUFACTURER HAS THESE ADVANTAGES

Second Chance is **FIRST** in effective sales. Effective sales means the policemen who purchase Second Chance... wear it! What good is selling more armor than anyone else when it is seldom worn?

Second Chance is **FIRST** in innovation. Second Chance's original patents for soft body armor didn't stop imitators from copying our concept of concealable body armor. And, their actions haven't stopped us from staying ahead of our imitators with better ideas for protection for the cop on the street.

Second Chance is **FIRST** in 'saves'...more than the rest of the body armor

industry combined! Even after more than 350 'saves' our imitators are telling American policemen that Second Chance isn't any good. Ask them for their 'save' list!

AND REMEMBER: SECOND CHANCE GIVES YOU MORE PURE KEVLAR

You can be absolutely sure each unit of body armor made to Second Chance standards contains 100% Kevlar. There's no unnecessary black magic formula to lure you into an uncomfortable vest; no spun plastic sponge taking the place of Kevlar to cover your kidneys and spine; no plastic backed Kevlar to stiffen your vest or retain more body heat.

And, there are the obvious reasons for wearing Second Chance - it's comfortable, concealable and made to be worn. All this with a ballistics warranty on every unit made with Second Chance quality proven technology.

CALL FOR MORE INFORMATION

Or, if you wish, we will refer you to a Second Chance representative in your area.

JUVENILE PROBATION AND PAROLE SERVICES

The administration of the juvenile probation system falls within the purview of the state, the Court Administrator and the county levels of government. The Office of Children and Youth Services of the is required to provide consultation and assistance to juvenile probation workers.

In all counties, juvenile courts are divisions of probate courts and have exclusive original jurisdiction over delinquent children and concurrent jurisdiction over neglected and dependent children under 17. Minors who have committed felony crimes after their 15th birthday may be waived to adult court (circuit) for trial.

ORGANIZATION AND ADMINISTRATION

Both the adult and juvenile state correctional institutions come under the jurisdiction of the Department of Corrections. The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, this parole authority is delegated to the Office of Adult Release. The Executive Officer of Juvenile Release, under the authority of the Commissioner, is the paroling authority for juveniles.

The Board of Pardons has the authority to grant pardons and pardon extraordinaries, and to commute sentences.

Probation, parole and supervised release are provided by the state and counties in different manners. Counties participating in the State Community Corrections Act (one-third of the counties; two-thirds of the state population) provide probation, parole and supervised release services to both adults and juveniles. In the remaining counties, these services are provided by the counties either with their own personnel or through contracts with the state.

ADULT PAROLE AND SUPERVISED RELEASE AUTHORITY

The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, the Commissioner delegates this authority to the Office of Adult Release. The Office of Adult Release consists of the Executive Officer of Adult Release and three department staff who are assigned part-time to assist the executive officer. An advisory panel composed of department employees advises the Commissioner regarding inmates with life sentences. Parole and supervised release duties were formerly performed by the Minnesota Corrections Board which was legislatively abolished on June 30, 1982.

Sierracin Glass-Clad Polycarbonate Glazings...

Proven in critically secure areas worldwide...in prisons and embassies, in government, corporate, financial and nuclear facilities. Sierracin glazings are approved by the Federal Bureau of Prisons and have been extensively tested by other U.S. and foreign agencies for resistance to all threats.

For resistance against high-powered ballistics, even after multiple hits, as well as physical force and flame attack, Sierracin OmniArmor™ is the answer.

For resistance against physical force, Sierracin OmniLite™ is proven in over 500 critically secure installations. Four all-new multi-ply polycarbonate designs deliver resistance against the severest types of attack weapons—from claw hammers and battering rams to pipes, sledge hammers and pick axes.

For resistance that deters vandals and burglars—for storefronts, jewelry cases, homes and factories—Sierracin OmniGard™ delivers the protection to match the threat.

With certified fire-rating. Two OmniLite cross sections offer a 20-minute fire rating conforming to UBC 43.2 and CSFM 43.7 fire codes. Test reports available upon request.

With the electronic dimension for ultimate security. Sierracin glazings may be ordered with alarm capability to complete your security system.

The Department of Parole and Probation, which supervises adult parolees and probationers, is advised by the Board of Parole Commissioners, which is the paroling authority. The Board of Pardons meets twice yearly to consider commutations and pardons.

The Youth Services Division of the Department of Human Resources handles juvenile institutions and parole services (as the Nevada Youth Parole Bureau). The Administrator of the Department of Human Resources services reports to the Governor.

Juvenile probation services are administered by district juvenile courts at the county level.

ADULT INSTITUTIONS

Anyone convicted of a felony, regardless of age, is committed to the Department of Prisons. The length of sentence varies: minimum sentence without violence is one year, with violence is five years; and a prisoner serving a life sentence must serve 10 years (minimum) before he can apply for a pardon.

ORGANIZATION AND ADMINISTRATION

New Hampshire established a Department of Corrections in 1983 providing for an umbrella organization to manage adult institutions (Division of Adult Services) as well as adult and juvenile probation and adult parole (Division of Field Services). In 1985, responsibility for state forensic patients was transferred to the Department of Corrections as the Secure Psychiatric Unit.

The Board of Parole grants parole to adults.

Some district court probation offices have been established to provide separate probation services to adults.

Juvenile activities were placed into the Division for Children and Youth Services of the Department of Health and Welfare.

The Juvenile Parole Board grants parole to juveniles committed to the Youth Development Center; they are supervised by the Juvenile Parole Department of the Center.

JUVENILE INSTITUTIONS AND SERVICES

Juvenile services, such as detention, treatment, diagnostic services, in-patient psychiatric care, in-residence special education, residential centers, etc. are the responsibility of the Bureau of Residential Services of the Department of Health and Human Services.

After being adjudicated delinquent, individuals may be committed by court order to the Youth Development Center. Status offenders are not accepted at the Center.

As of July 1, 1985, all functions of the Bureau of Secure Care were incorporated into the Bureau of Residential Services, which included all residential programs for delinquents, in-patient psychiatric services for children and youth, and a special education residential school for the emotionally disturbed.

ORGANIZATION AND ADMINISTRATION

The Department of Corrections, formerly a division in a large department, was created November 1, 1976 through legislation. It has four divisions: Adult Correctional Institutions, Juvenile Services, Policy Planning and Administration; 18 bureaus, 14 correctional institutions, with thirteen satellite units; 17 residential group centers, a readjustment unit located in the Vroom Building of the Trenton Psychiatric Hospital, five community treatment centers for juveniles in the metropolitan areas of the State, and two adult community service centers for eligible inmates within nine months of parole or expiration of maximum sentence.

The Department is also responsible for the inspection of county and municipal detention facilities; the operation of State Use Industries, which manufactures, distributes and stores support items for various institutions; and extensive rehabilitation programs. A seven-member Advisory Council, appointed by the Governor, reports to the Commissioner.

The State Parole Board is appointed by and responsible to the Governor. The Board is the paroling authority for all offenders committed as adults, young adults or juveniles in the state. The Bureau of Parole provides supervision for parolees.

Adult and juvenile probation services are under the Administrative Office of the Courts of the Judiciary.

COMMUNITY SERVICE CENTERS

The Community Service Centers are a pre-release concept designed to ease the re-entry of the released, adult offender into the community. Houses not more than 50 for a period of about four months. Residents work a regular full-time job or attend school or vocational training. Residents eligible for admission into the program are those who have achieved minimum custody status in the institution, who meet stipulated admission criteria and who are within seven months of release to parole or termination of sentence.

Save 1/3 the space on storage of prisoners' effects.

Correctional institutions all over the country are using White Conveyors for the storage of prisoners' effects. Many centers store these effects in garment bags or on hangers. The conveyors need no aisles and so can be "caged" or "walled in" with just a small section open for the attendant. Retrieval time is dramatically

reduced. A push of a button automatically brings the proper conveyor position to the attendant. Prisoners' effects are thus stored in an organized, easily retrievable fashion.

If your space is at a premium White Conveyors may be the answer.

ADULT PAROLE BOARDS

The State Parole Board, is a full-time Board composed of a Chairman and six Associate Members appointed by the Governor with the advice and consent of the Senate. The Board is comprised of a panel for adult, young adult and juvenile cases. The members are further paired to hear county jail cases.

Each panel consists of two Associate Members with the Chairman sitting as the third member of each panel. The Board is the paroling authority for all offenders committed as adults, young adults or juveniles in the state and county jail inmates with terms in excess of 60 days. The Board also investigates and advises the Governor on all applications for executive clemency. In 1984, a Victim Input Program was started. The Board will consider the testimonies of victims of first and second degree crimes in making decisions.

ADULT AND JUVENILE PROBATION SERVICES

A single probation department exists in each county to provide probation services to all courts in the county that handle adult and/or juvenile matters at the trial level. The Judges of the Superior Court in each county appoint probation officers, fix their salaries and generally oversee the day-to-day operation of each probation department. Operating costs are paid for out of county revenues.

The Administrative Office of the Courts, through an Assistant Director for Probation, coordinates and supervises all probation services, acts for the Judiciary in relation to interstate probation matters, assists in developing policies and programs, conducts training for probation officers, and functions as consultants and advisor to the Judiciary.

ADULT INSTITUTIONS

Adult offenders, 18 and over (except 15 year olds who have committed murder and 16 year olds who are convicted of other violent felonies), who have been convicted of a felony are committed to the Corrections Department where they must serve a minimum sentence of six months at one of the following institutions. Misdemeanants and felons may be placed on probation by the court with the Corrections Department supervising them.

In some cases, the judge may decide to send an adult offender to an institution for a 60-day diagnostic evaluation commitment. After the evaluation is made, the judge makes a decision to sentence or place on probation.

PROBATION AND PAROLE

All adult probationers, parolees and juvenile parolees are supervised by the Field Services Division of the Corrections Department. In addition to supervision, Field Services staff perform executive clemency investigations for the Governor's office, and prepare presentence investigation reports for the Courts. Field Services supervises a Transitional Employment Opportunity Program for both adult and juvenile parolees and operates a Community Corrections program. Field Services utilizes both group and foster home care for juvenile parolees.

Juvenile probationers are supervised by the Courts.

ORGANIZATION AND ADMINISTRATION

The Department of Correctional Services administers the adult correctional institutions. The adult Board of Parole, an autonomous agency which reports to the Governor, is administratively under the Division of Parole, which is responsible for the administration of institutional and field parole services for adults and some juveniles.

Juvenile institutions are administered by the Division for Youth under the Executive Department. Parole services and supervision are also the responsibility of the Division.

Probation services are administered by local county departments. The Division of Probation and Correctional Alternatives, under the Executive Department, serves primarily to supervise county operations and provide financial assistance.

The City of New York has its own correctional system for offenders: the Department of Corrections; the Department of Juvenile Justice; and the Department of Probation.

NEW YORK STATE EXECUTIVE DEPARTMENT

DIVISION OF PROBATION AND CORRECTIONAL ALTERNATIVES

The purpose of the Division of Probation and Correctional Alternatives is to assist local probation departments in providing efficient and cost effective probation services through Rule, financial support, direct services, training, data collection and general supervision in three functional areas: intake/diversion, investigation/reports and supervision.

The Probation Commission advises and consults with the Director of Probation and Correctional Alternatives in the formulation of policies relating to probation throughout the state.

As reconstituted by Chapter 695 of the Laws of 1971 and amended by Chapter 496, Laws of 1972, the Probation Commission consists of the Director of Probation, who is chairman, and six other members selected as follows: three appointed by the Governor from among persons who, as members of the community, have demonstrated an interest and involvement in the field of probation; two appointed by the Governor from among probation administrators and probation officers actually employed in the field of probation; and the Chief Administrator of the unified court system. Members do not receive any compensation for their services; those appointed by the Governor serve at the pleasure of the Governor.

NORTH CAROLINA

ORGANIZATION AND ADMINISTRATION

Adult correctional institutions and services are provided by the **Department of Correction**, a supra-agency composed of two divisions. The **Division of Prisons** is responsible for adult institutions (divided into geographic areas) and facilities for youthful offenders (18-21) and for juveniles who are tried as adults and assigned to the Division's **Youth Services Complex**. The **Division of Adult Probation and Parole** is responsible for the supervision of all adult probationers and parolees.

The **Parole Commission** is the paroling authority for adult offenders. It is funded by the Department of Correction but reports only to the Governor.

Juvenile institutions are operated by the **Department of Human Resources' Division of Youth Services**. A juvenile is released from an institution at the discretion of the staff of the institution except when committed for a definite term by the court. There is no juvenile parole board as such.

Juvenile probation and aftercare are provided by the **Juvenile Services Division** of the **Administrative Office of the Courts**.

Of the 81 facilities in North Carolina, 68 are managed through six Area Offices, centrally located within six geographic areas of the State.

Three geographic areas are managed by the Western Area Manager and three are managed by the Eastern Area Manager. All adult male misdemeanants and felons sentenced to 5 years or less are received at a unit designated as the Reception/Diagnostic Center. At this center the inmate is evaluated and classified for assignment to a designated unit within the area for the completion of an appropriate correctional program.

Minimum custody youthful offenders between the ages of 18-21 are separated from the adult population in 10 specially designated youthful offender facilities.

JUVENILE PROBATION AND PAROLE SERVICES

The Juvenile Services Division of the Administrative Office of the Courts is responsible for juvenile intake, probation and aftercare. Juvenile probationers are supervised by Juvenile Court Counselors.

The release date for each juvenile is set by staff members at each juvenile institution in consultation with aftercare counselors unless the court sets it by specifying the term of commitment. There is no juvenile parole board as such.

ORGANIZATION AND ADMINISTRATION

The Director of Institutions operates both adult and juvenile institutions. All felons with a sentence from one year to life are committed to the State Penitentiary; male offenders with a sentence not less than 30 days, nor more than one year, are committed to the State Farm.

The Parole Board is an autonomous agency with authority to parole adults. The Pardons Board is an autonomous agency with authority to pardon adults. The Parole and Probation Department provides state supervision of adult parolees and probationers.

Youth offenders are committed to the co-educational juvenile institution directly from the juvenile court, or through the State Youth Authority. Juveniles up to age 18 who are adjudicated delinquent by the court and committed to the Director of Institutions are placed in the State Industrial School (juvenile institution,) where the Director of Institutions determines the release date for these juveniles.

The Children and Families Services Division of the Department of Human Services, provides supervision and treatment services to youth offenders who are directly committed by the juvenile court.

Juvenile Probation Services are administered on the local level by the County Juvenile Supervisor in each county.

JUVENILE CORRECTION SERVICES

The Juvenile Correction Programs, administered by the Department of Human Services, provide community based evaluation and treatment services to juveniles and their families. These programs include both probation and parole services, of which the Childrens and Families Services Division is most active and takes formal legal custodianship of juveniles committed by the juvenile court. Nearly all children leaving institutional care receive aftercare (parole) services through these community correction programs.

Linescan System Four

*Throughout the world the low-cost Linescan System Four spots danger in visitors' reception rooms, lobbies, and mail rooms. This compact System is **mobile**, with large rubber casters and conveyor ends that fold so it can be rolled easily from one location to another.*

Visitors can bring in big problems in small packages if you don't really "look inside." Items that might not be detected with the naked eye — syringes, narcotics, weapons — can be discovered easily with a Linescan Conveyorized X-ray Inspection Unit. Danger to security guards and other personnel is sharply reduced, as you can view "inside" details vividly, easily, and quickly. Objects are clearly viewable without distortion, and a

zoom option is available for closer inspection of suspect areas.

We have a wide range of security units to select from, including the System Seven which inspects objects up to 40" x 40" x unlimited length. And all Linescan Systems are backed by our worldwide training and service network, so write or phone for information. The more you want to see, the better Linescan looks.

ORGANIZATION AND ADMINISTRATION

Adult corrections institutions and parole services are provided by the Department of Rehabilitation and Correction; juvenile institutions and parole services are provided by the Department of Youth Services.

The Parole Board of the Adult Parole Authority is the paroling authority for adult felons. The Adult Parole Authority, within the Division of Parole and Community Services under the Department of Rehabilitation and Correction, may exercise general supervision over all probation officers in the state, including those in county probation departments. All parolees and selected probationers referred by the Common Pleas Court on a contract basis are supervised by the Adult Parole Authority. In the remaining counties, probation services are provided by local probation departments.

Upon release from an institution, juveniles enter aftercare status of the Department of Youth Services. Parole revocation hearings are conducted in the committing court.

Probation supervision of juveniles is provided by probation officers who are appointed by a Juvenile Court Judge.

ADULT INSTITUTIONS

A person convicted of a felony under Ohio law may be sentenced to a penal institution. Ohio statutes divide male penal institutions into two categories—reformatories and penitentiaries. Male persons, except those convicted of first or second degree murder, between the ages of twenty-one and thirty years of age may be sentenced to a reformatory, if such persons have not been known previously to have served a sentence in a federal, state or other prison or correctional institution, and are persons whom the sentencing court deems amenable to reformatory methods. Males between the ages of eighteen and twenty-one years, other than those convicted of first or second degree murder, must be sentenced to reformatories unless such males have previously served a sentence in a federal or state prison or correctional institution for conviction of a felony. All other males sentenced to a state penal institution are sent to a penitentiary.

Ohio operates one facility for women convicted of a felony and sentenced to a penal institution — the Ohio Reformatory for Women.

Holds Heat! Holds Up!

Insulated Servers Keep Hot Food Hot, Cold Food Cold.

The Heat's On To Keep the Heat In The Meals You Serve

Want to hold required 140°F serving minimums and find durable serviceware to do it with, too?

Tray Stack Keeps Food Hot To Required 140°F Minimums.

Use Aladdin servers. They capture the heat that's cooked into food to keep it hot. Urethane foam wrapped in a tough, molded shell, insulates it. Perfect for isolation and satellite meals.

Because servers stack in an inter-locking tower, heat rises from each serving compartment, keeping food items above warm.

Cold food items in the stack, meanwhile, keep each other chilled. Materials and seamless molding technique make system impact- and torque-resistant. Protects your investment.

ADULT PAROLE BOARD AND SERVICES

The Parole Board of the Adult Parole Authority within the Division of Parole and Community Services which is under the Department of Rehabilitation and Correction, has parole authority over adult felons. In addition to the seven full-time paid members, nine Hearing Officers expand the functions of the Parole Board.

The Parole Board can release felons from adult institutions on "shock parole" after six months confinement, provided the offense was not murder or aggravated murder, a felony of the first degree, and anyone serving a sentence of actual incarceration. Inmates who complete one-third of their minimum sentences before their first parole hearings may be eligible for educational and vocational furlough. Inmates are also eligible for regular parole after serving the minimum sentence less time for good behavior.

JUVENILE INSTITUTIONS

To be placed into the custody of the Department of Youth Services, a juvenile offender must be committed by a county juvenile court for an offense which would be a Felony I, II, III, IV, or a capital offense if committed by an adult. Upon commitment, a youth is placed in the appropriate DYS institution based on criteria established regarding age, type of committing offense, and home county. All youth who are committed to DYS may, at the discretion of the Department, be institutionalized to age 21, although very few actually are. There are minimum periods of institutionalization as follows: Murder or aggravated murder, until the youth reaches 21 years of age; felonies of the first and second degree, one year; and felonies of the third and fourth degree, six months. It should be noted that many youth are released before the "minimum" period, through a statutory process which requires approval of the committing court.

JUVENILE PROBATION AND PAROLE

Probation of juveniles is administered by probation officers who are appointed by a Juvenile Court Judge. The Judge may transfer the duties of probation to county probation departments but at no time may a juvenile case be handled by an officer from the Adult Division. The Office of Subsidies within the Department of Youth Services administers a program of state aid to juvenile courts.

In all but two counties, the Juvenile Court is within the Division of Domestic Relations of the Court of Common Pleas. Cuyahoga County has an independent juvenile court, and the Hamilton County juvenile court is a separate division of that county's Court of Common Pleas. All juvenile courts have exclusive original jurisdiction over delinquent, neglected, and "unruly" children under 18 and over physically handicapped children up to age 21.

OKLAHOMA

ORGANIZATION AND ADMINISTRATION

The Department of Corrections offers comprehensive services for adults, among them institutional, parole and probation. The Director operates under the authority of the Oklahoma Board of Corrections.

The Pardon and Parole Board, a separate state agency appointed by the Governor, is the paroling authority for adult offenders.

Within the Department of Human Services, the Division of Children and Youth Services is responsible for juvenile correctional institutions, probation services (in all but three counties), and parole services.

The Parole, Review and Hearing Board is the paroling authority for juvenile offenders. The Board, an administrative hearing body, makes recommendations to the Director of the Department of Human Services, who has the final decision.

DAVID

OUTDOOR VIDEO MOTION DETECTION "THAT WORKS"

Until now, automatic video motion detectors have been woefully inadequate in discriminating between outdoor environmental effects and real intruders. The result: high false alarm rates, confusing multiple alarm situations and loss of user confidence.

DAVID is a signal processing breakthrough! Like other motion sensors, DAVID detects targets by looking for small contrast changes in the video scene. But unlike other motion sensors, DAVID then subjects the targets to stringent validity tests for size, speed, distance and direction before declaring an alarm. These tests are highly effective in eliminating alarms from small animals, weather effects, camera motion, etc. The result: high probability of detection, a dramatic decrease in false/nuisance alarms, a low operator workload, and a high level of operator confidence.

For more about DAVID please contact COMPUTING DEVICES COMPANY,
3500 Lakeview Drive, Hattiesburg, Mississippi 39401. Toll free: 800-423-4296.

The Executone® Maximum Security Telephone System:™ Added Safety for the Correctional Officer.

In a correctional institution, the telephone is far more than just a communication device. It's a tool to safeguard lives.

That's why Executone, in cooperation with the Federal Bureau of Prisons, has designed the Maximum Security Telephone System: the most advanced computerized telecommunications network for correctional institutions ever conceived.

The Maximum Security Telephone System anticipates virtually every possible security situation. Take, for instance, the System's special "No Dial" feature that automatically generates an alarm if a phone is left off the hook longer than 14 seconds. Or the "Watch-Call Station" feature that simplifies and safeguards inmate head counts. To call in, officers simply dial a 3-digit code that instantly connects them to the "Watch-Call Station" located in the control center. Up to 32 officers can call in—and confer—simultaneously.

The System also provides special phones in key security areas like control

centers, guard towers, sally ports and emergency personnel areas. Should an emergency arise, an officer need only dial a 3-digit code to set off all security conference phones simultaneously.

For all its technological sophistication, the System is remarkably easy to use, install and maintain. And its price is competitive with systems that are currently used in correctional facilities but do not offer these advanced security features.

So play it safe. Call the Executone experts and learn more about what this special System can do for your facility.

ORGANIZATION AND ADMINISTRATION

The Department of Human Resources provides correctional services through the Corrections Division, responsible for adult correctional institutions and, parole and caseload supervision; and the Children's Services Division, responsible for juvenile correctional institutions and parole services (with the Office of Correctional Services).

The paroling authority for adults is the Board of Parole, an independent agency responsible only to the Governor.

There are presently 15 counties participating in the Community Corrections Act (CCA), which allows them to provide probation, parole and other services for adult offenders.

There is no juvenile parole board. The release date for juveniles is determined by a team of institution and juvenile parole staff.

Juvenile probation services are provided by the counties.

JUVENILE PROBATION SERVICES

Probation is a function of the individual county juvenile courts.

Telephone: (503) 378-6046

R. William Linden Jr., Administrator

PA PENNSYLVANIA

ORGANIZATION AND ADMINISTRATION

Adult institutions come under the jurisdiction of the newly formed Department of Corrections. The Commissioner is appointed by the Governor.

Adult parole cases are reviewed and supervised by the Board of Probation and Parole for probationers and parolees whose sentences are more than two years. County probation departments supervise adult cases with a sentence of two years or less paroled by county courts. The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of two years or less when paroled and referred to the Board by the county courts; county courts retain authority to revoke, terminate or take other judicial actions in these special cases.

Juvenile institutions come under the jurisdiction of the Bureau of Group Residential Services of the Department of Public Welfare's Office of Children and Youth and Families. Juvenile probation and aftercare are functions of the counties and their officers.

There are no institutional juvenile parole boards; the Juvenile Court has complete and original jurisdiction over juvenile offenders.

ADULT INSTITUTIONS

Those convicted in adult criminal court and receiving maximum sentences of from two to five years may, at the discretion of the court, be sent to a Correctional Diagnostic and Classification Center for classification and transfer within the state system. Criminal convictions receiving five years or more must be sent to a Correctional Diagnostic and Classification Center. A 23-county region of Western Pennsylvania may send all individuals receiving minimum sentences of at least six months and maximum sentences of less than two years to the regional facility at Mercer.

Parole eligibility occurs at the end of the minimum sentence which may not exceed one-half of the maximum sentence. For certain violent crimes, a mandatory five-year minimum sentence is required. All other cases are sentenced under 1982 sentencing guidelines which require the courts to justify any deviations.

Youthful offenders are adult criminal commitments, but because of age (15 to 21 years) are maintained at the State Correctional Institution at Camp Hill. Their sentences are statutorily established at indeterminate to six years unless the maximum for the offense is less than six years, in which case the sentence is indeterminate to the statutory maximum for that offense.

ADULT PAROLE AND PROBATION

The Board of Probation and Parole, a state agency, is responsible for the paroling action and supervision of all adult offenders receiving a sentence of two years or more. Offenders sentenced to a maximum sentence of less than two years are paroled by county courts and supervised by county probation departments.

The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of less than two years when paroled and referred to the Board by the county courts. The Board has only supervision authority in these special cases; county courts retain authority to revoke, terminate, or other judicial actions.

The Board is responsible, by state statute, for establishing uniform state-wide standards for county adult probation services. It also administers a Grant-in-Aid Program which provides funds to counties for the improvement of county adult probation services.

★ BOARD OF PROBATION AND PAROLE (FT)

The Board consists of five full-time members, appointed by the Governor with the consent of a majority of the Senate members to serve staggered, renewable six-year terms. Board members are prohibited from engaging in any other employment or political activity.

JUVENILE PROBATION AFTERCARE

Within the context of the Juvenile Court Act, the state provides institutions for juveniles but the counties handle juvenile services, i.e., probation aftercare (the term parole is not used). The Juvenile Court Judges' Commission is responsible for advising juvenile courts concerning the proper care and maintenance of delinquent children; establishing standards governing the administrative practices and judicial procedures used in juvenile courts; examining personnel practices and employment standards used in probation offices; collecting, compiling and publishing juvenile court statistics; and administering a grant-in-aid program to improve county juvenile probation services. Commission staff also provide training for juvenile probation officers.

The Commission is comprised of nine juvenile court judges appointed by the Governor.

For individuals serving an indeterminate sentence under the Youthful Offender Act, the Youthful Offender Branch is responsible for their parole decision and supervision.

The Department of Parole and Community Corrections establishes alternatives to imprisonment for non-violent offenders; grants paroles and pardons; and, supervises those placed on probation by the courts. The Department of Parole and Community Corrections is responsible to the six-member Parole and Community Corrections Board. Six part-time and one at-large members are appointed by the Governor.

ADULT INSTITUTIONS

Responsibility for direct supervision of institutions is divided among three regional administrators who report to the Assistant Deputy Commissioner for Operations. Because of overcrowded conditions, some state inmates are housed in designated local facilities, as provided for by legislation for a period of one year and may be renewed by mutual agreement of the Department of Corrections and local officials. The office of the Assistant Deputy Commissioner for Operations is responsible for placing state inmates in designated local facilities. At the end of FY 1986, there were 55 designated local facilities with 502 Department of Corrections' inmates.

PROBATION AND PAROLE SERVICES

The Department of Parole and Community Corrections supervises those placed on probation by the Court, on parole by the Board and those on early release programs created by the legislature to relieve prison overcrowding. They also develop community corrections alternatives to incarceration for the non-violent offender.

The Parole and Community Corrections Board is composed of seven members who serve six year staggered terms. The members are appointed by the Governor, with consent of the Senate, one from each of the six congressional districts, with one member-at-large.

Vested in the Board is the authority to grant paroles, to restore citizenship rights through pardon, and to oversee the operation of the Department of Parole and Community Corrections.

JUVENILE INSTITUTIONAL AND COMMUNITY PROGRAMS

Children of the ages 10 to 17 who are adjudicated delinquent may be committed by a Family Court Judge to the correctional facilities operated by the Department of Youth Services. The Department is also responsible for providing intake, probation and aftercare (parole) services through offices located in each county. A ten-member Juvenile Parole Board reviews the records and progress of children committed to the custody of the agency for the purpose of deciding the releases and revocations of releases of such children.

ORGANIZATION AND ADMINISTRATION

The Department of Correction provides adult and juvenile services. The Probation Division supervises adult probationers and provides probation and aftercare services for juveniles. Several cities and/or counties maintain separate probation departments for adults and juveniles.

The Board of Paroles is an independent agency which reports to the Governor. Its Parole Field Services paroles and provides supervision for adults only.

There is no juvenile parole board. The release date for a juvenile is determined by the various Juvenile Court Judges based on recommendations made by the directors of the juvenile institution and the Assistant Commissioner of Youth Services.

JUVENILE AFTERCARE

The release date for a juvenile is determined by the various Juvenile Court Judges based on recommendations made by the Directors of the juvenile institution and the Assistant Commissioner of Youth Services. There is no juvenile parole board.

TX**TEXAS**

ORGANIZATION AND ADMINISTRATION

The Department of Corrections operates adult institutions; the Texas Youth Commission operates juvenile institutions. Each has its own Board to which it reports.

The Board of Pardons and Paroles is an independent agency which paroles adults and is responsible for providing parole services.

Supervision of juveniles on parole is by the Texas Youth Commission's Community Services Division.

Adult probation supervision is provided by the Adult Probation Commission, an independent agency which establishes standards and provides funds for district adult probation departments. The 116 district departments are under the administration of the District Courts; officers are employees of the courts.

Juvenile probation departments provide services to the counties. The Texas Juvenile Probation Commission was created in 1981 to support, advise and provide standards for county probation departments.

SECURITY PRODUCTS - PERFORMANCE AND QUALITY SINCE 1976

The security glazing market has become extremely complicated. Companies and products rise and fall at an exceedingly quick pace. When replacements or warranties are required, they may not always be available. So - the risk, responsibility and the headache, become the owners' and managers' problem.

Globe Amerada has been manufacturing security glazing products since 1976. Installed in over 400 correctional and psychiatric hospitals, we have a track record which speaks for itself. **Globe Amerada** products are low in original purchase and replacement costs. They have proven their longevity, durability, scratch and abrasion resistance, without minimizing security.

The performance of **Globe Amerada's Secur-Lite® X, Secur-Tem® and Secur-Tem® + Poly™** laminates continues. Our manufacturing of these security products has been based on our commitment to the success of each correctional facility. We have the integrity to advise what our products can do - as well as what they cannot do. With **Globe Amerada** the design and function of our security products are clear cut.

ORGANIZATION AND ADMINISTRATION

The Department of Corrections operates the state adult correctional institution; its Field Operations Division provides adult probation and parole supervision and administers community correctional centers.

The Board of Pardons, the paroling authority for adults, reports to the Board of Corrections. Although administratively within the Department of Corrections, its decision-making authority is autonomous and uninfluenced.

The Division of Youth Corrections, within the Department of Social Services, operates the juvenile institutions and provides supervision of its releasees. The Division has its own paroling authority, the Youth Paroling Authority, which has jurisdiction of all youth committed to the Division by the Juvenile Court. Also, under the Division of Youth Corrections, detention centers are provided by the state as holdover facilities or for long-term care of youth offenders. (These centers and facilities are financed (50%) by the State but administratively operated by the counties.) Group Homes are used as an alternative to the Youth Development Center for children not requiring secure custody.

Juvenile probation services are provided by probation officers under the juvenile courts.

ORGANIZATION AND ADMINISTRATION

Adult institutions and probation and parole services all come under the jurisdiction of the State Department of Corrections whose Commissioner reports to the Secretary of the Agency of Human Services.

The Board of Parole grants parole to adult offenders and is responsible to the Governor.

Responsibility for delinquent juveniles has been delegated to the Department of Social and Rehabilitation Services, within the Agency of Human Services. There is no longer any functional juvenile parole system. Children in custody go into placements and eventually return to their communities where supervision is the responsibility of the caseworker.

Juvenile probation services are provided by the Division of Social Services of the Department of Social and Rehabilitation Services.

ORGANIZATION AND ADMINISTRATION

The Department of Corrections operates the adult correctional institutions and administers adult probation and parole services.

The Indeterminate Sentence Review Board is an independent agency reporting only to the Governor. The Board reviews the cases of adult felons only. A Sentencing Reform Act which took effect on July 1, 1985 abolishes parole for crimes committed after June 30, 1985 and establishes a determinate sentencing structure for all felonies.

The Division of Juvenile Rehabilitation of the Department of Social and Health Services provides for institutions and parole services.

Juvenile probation services are provided by each county at the local level.

JUVENILE INSTITUTIONS AND PAROLE SERVICES

The Division of Juvenile Rehabilitation works with youth between the ages of 8 and 20 committed by the county juvenile courts. Since July 1, 1977, juvenile courts can only commit delinquent youth to the Division; before July 1977, the courts were also committing dependent incorrigibles.

Beginning July 1, 1978, release dates were established utilizing a minimum and maximum. These ranges have to be approved by the legislature.

WEST VIRGINIA

ORGANIZATION AND ADMINISTRATION

The Department of Corrections is responsible for adult and juvenile correctional facilities, and adult parole supervision. The Department also handles adult and juvenile interstate compact cases for probation and parole as well as a small percentage of probation supervision cases. Women prisoners are sent to the Federal Correctional Institution in Alderson, West Virginia.

The Board of Probation and Parole is the paroling authority for adults.

The Supreme Court of Appeals maintains probation departments that are responsible for providing probationary supervision services to adults and juveniles. Under West Virginia statute, juveniles return to the committing court for institutional release. Since release is judicially and not administratively determined, this is considered probation. These juveniles are supervised by the Department of Human Services. In approximately 25% of the cases, the Department of Human Services also provides the Courts with juvenile probation officers.

WYOMING

ORGANIZATION AND ADMINISTRATION

The Board of Charities and Reform is fully responsible for the management of penal institutions or community based correction programs and human service institutions for adults and juveniles. The Board is comprised of five elected officials: Governor, Secretary of State, Auditor, Treasurer and Supervisor of Public Instruction. The Executive Secretary of the Board oversees all Board matters while the State Corrections Administrator assists him in penal matters.

The paroling authority for adults is vested in the Parole Board. The Board is also responsible for recommending commutations to the Governor and controls Good Time Awards.

The Department of Probation and Parole, an independent agency reporting only to the Governor, provides a state-wide system of probation and parole services for both adults and juveniles. There are exceptions to this state system in that several municipalities and counties have juvenile probation counselors and or diversion counselors.

Juveniles are discharged or released to Parole by the Board upon staff recommendations under an indeterminate sentencing structure.

U.S. PAROLE COMMISSION

ORGANIZATION AND ADMINISTRATION

The Commission, an independent agency placed within the Department of Justice for administrative purposes, has jurisdiction over all eligible federal prisoners, and continuing jurisdiction over those who are released on parole or mandatory release. On a cooperative basis the Commission uses the services of staff employed by Bureau of Prisons. That staff prepares classification summaries, progress reports and other reports concerning parole applicants. Field supervision of released prisoners is provided by the Federal Probation Officers, who are employed by the United States District Courts. They function as 'parole officers' and prepare reports concerning the adjustment of parolees for the Commission.

U.S. SENTENCING COMMISSION

1331 Pennsylvania Avenue N.W., Suite 1400
Washington, D.C. 20004
Telephone: (202) 662-8800

Created under provisions of the Comprehensive Crime Control Act of 1984, the U.S. Sentencing Commission's responsibility is to devise guidelines for sentencing individuals convicted of federal crimes, with a goal of minimizing sometimes wide disparities in sentences meted out for similar crimes.

As directed by the terms of the Act, the Commission will provide a report to the Congress by April 1, 1987. The report will contain recommendations for sentencing guidelines, setting minimum and maximum sentences for the entire range of federal crimes. An important feature of the Act provides that the present parole system for federal convicts be phased out.

Administrative support for the Presidential Commission will be provided by the Administrative Office of the U.S. Courts.

Members: Michael K. Block; Stephen G. Breyer; Helen G. Corrothers;
George E. MacKinnon; Ilene H. Nagel; Paul H. Robinson; William W. Wilkins Jr.

The National Parole Board grants or denies conditional releases to those inmates under sentence of imprisonment in federal penitentiaries, or provincial jails in those provinces where there is no provincial Parole Board. It is an independent body reporting to Parliament through the Ministry of the Solicitor General.

The Board consists of 36 members appointed by the Governor-in-Council. All members may be reappointed. The head office is in Ottawa, though divisions of two or more members may be established. There are five such divisions, one in each major geographical region of the country, namely, the Atlantic, Quebec, Ontario, the Prairies and the Northwest Territories, and the British Columbia and Yukon regions. Regional Offices are managed by one Regional Executive Officer in each region with support staff.

NEWFOUNDLAND AND LABRADOR

ORGANIZATION AND ADMINISTRATION

Pursuant to the passing of the Adult Corrections Act, 1975, a division of the Department of Justice was created whereby the provincial custodial institutions and the probation service were amalgamated. This marked the commencement of the Adult Probation Services under the Community Corrections Branch of the Adult Corrections Division. The population served are adult offenders (age 18+) whereas juvenile offenders are served by the Department of Social Services, and parole is a responsibility of the Correctional Service Canada.

The Department of Social Services is the principal agent for the delivery of Youth Corrections Services. Youth between the ages of 12-18+ years usually are referred by the youth court upon disposition for case management, but other referrals for voluntary counselling are possible. The services available usually fall into one of four categories, a) alternative measures and dispositional options, b) community corrections, e.g., probation, c) community residential care, and d) secure custody.

ORGANIZATION AND ADMINISTRATION

Adult correctional services are the responsibility of the Department of Justice.

Probation Service supervises defendants subject to conditions imposed by the court and prepares pre-sentence investigations for the court. In addition, it prepares pre-release reports and supervises paroles released by the Provincial Parole Board which was created in 1979.

Probation Service implemented a Community Service Programme in all the judicial districts and is responsible for its administration. The primary objective of the programme is to provide a court and to those who appear before it a substitute for prison sentences in cases where the public interest is not endangered.

Juvenile services are the responsibility of the Department of Social Affairs.

JUVENILE CORRECTIONAL SERVICES

By virtue of the passage in 1971 of the blueprint law "An Act respecting health services and social services", the province of Quebec was divided into nine socio-sanitary regions within which were grouped all the establishments offering services to children with behavioral problems. Such establishments are called rehabilitation centers; these centers "admit persons suffering from a . . . psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time."

The admittance of children to these reception centers, the respect for their rights, the type of program their state requires, the conditions for providing care in a top security environment are all regulated by the Youth Protection Act which was sanctioned in December, 1977.

ORGANIZATION AND ADMINISTRATION

The Ministry of Correctional Services is divided into three main divisions: Operations; Planning and Policy, and Finance and Administrative Services. Also, the ministry has jurisdiction over the Board of Parole which considers for parole those inmates serving sentences of up to two years less a day in provincial institutions.

The Operations Division resulted from the amalgamation of the former Institutions and community programs divisions in 1984 and is comprised of the offender programming branch and five regions, each with its own regional director and regional managers. All superintendents of provincial correctional facilities and probation/parole area managers report to the regional managers for their region.

The probation/parole offices in each region provide services for all young offenders who are 16 or 17 years of age and for all adults aged 18 years or over who have been placed under probation supervision by the courts. Staff in these offices also provide supervision for all inmates released from provincial institutions under the authority of the Board of Parole. Probation and parole officers may also be responsible for the supervision of incarcerates released on temporary absence or serving intermittent sentences.

PRINCE EDWARD ISLAND

ORGANIZATION AND ADMINISTRATION

The jails in Prince Edward Island accept remand and sentenced adult prisoners, both male and female, of the age 18 and over, regardless of the offense. They also act as lock-ups for all police forces in the Province. Females are seldom committed to custody.

In addition, the Department of Justice is now responsible for young offenders aged 12 to 17. There are no institutions for young offenders within the Province. Those requiring short term detention are held separate and apart in designated areas of the adult jails. Those committed to longer term detention after court proceedings are housed in institutions in the provinces of Nova Scotia and New Brunswick.

COMMISSION ON ACCREDITATION FOR CORRECTIONS

ACCREDITED FACILITIES AND PROGRAMS

The Association develops and publishes standards for ten correctional areas. These standards are used by the Commission on Accreditation for Corrections as a basis for making accreditation decisions.

Over 550 correctional facilities and programs are involved in accreditation, a process which began in 1978. Approximately 80 percent of all state departments of corrections and youth services are active participants. Also included are programs and facilities operated by the Federal Prison System, the U.S. Parole Commission, and the District of Columbia.

For these agencies, the accreditation program offers the opportunity to evaluate their operations against national standards and to remedy deficiencies and upgrade the quality of correctional services. The recognized benefits from such a process include improved management, a proven defense against lawsuits through documentation and the demonstration of a "good faith" effort to improve conditions of confinement, increased accountability and enhanced public credibility for administrative and line staff, a safer and more humane environment for personnel and offenders, and the establishment of measurable criteria for upgrading programs, personnel and physical plants on a continuous basis.

ACAnet

The Information and Communication Network for the Corrections Profession

ACAnet is a computer-based information system designed with the corrections professional in mind. All you need is a personal computer or terminal equipped with a phone modem. The network is menu driven, so if you can order dinner at a restaurant, you can use ACAnet.

Member benefits from ACAnet:

FREE SOFTWARE

Free programs are available on ACAnet that perform a number of tasks from file management to specific correctional applications. These programs are "downloaded" or copied from the DATABASE section of ACAnet to your own disk and then can be used on your computer as needed.

SHARPEN YOUR KNOWLEDGE OF CORRECTIONAL ISSUES

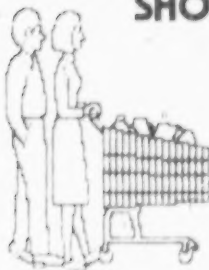

ACAnet provides a means to disseminate the most recent information on any correctional issue. By using the FORUM section of ACAnet you can participate in discussions on correctional issues. Each month experts are chosen to coordinate the discussion and answer questions on relevant issues. All members are invited to ask questions and make comments.

MAKE A CAREER MOVE

A Bulletin Board of career opportunities from across the country is maintained on ACAnet. Positions in many areas of corrections, both entry level and administrative, are available. Members may also post positions they would like filled in the CAREER area.

SHOP FOR CORRECTIONAL PRODUCTS

Publications as well as merchandise and memberships available through the American Correctional Association can be ordered online. This greatly reduces the turn around time in processing an order. A listing of vendors of correctional products is also available in the SHOPPING SERVICE.

COMMUNICATE AND SAVE \$ ON OVERNIGHT DELIVERY

Sending electronic mail to your colleagues will keep you in instant communication with them. Also, if you need to get a document across the country in a hurry, you can send it via ACAnet. Average size documents cost less to send over the network than by an overnight delivery.

KEEP INFORMED

ACAnet provides the most recent developments in correctional research. A listing of unpublished reports conducted by Departments of Correction is maintained. You also benefit from a corrections HOTLINE and ANNOUNCEMENTS. To keep up with other ACAnet members a bulletin board for their interests is online. For an additional charge, ACAnet also provides access to NCJRS and DIALOG references.

MEET OTHER PROFESSIONALS

In the member DIRECTORY you can search through information about other ACAnet members. This enables you to locate other professionals who work in a specific area and who may be able to help you with certain problems.

Become a member of a strong and growing professional organization with thousands of your colleagues in corrections and criminal justice...

TRAINING AND TECHNICAL ASSISTANCE

The American Correctional Association's Division of Training and Technical Assistance offers training to meet the needs of our membership through nationally advertised and on-site training programs. We are pleased to offer correspondence courses for Correctional Officers and Correctional Supervisors.

Training for Staff Trainers

A survey recently conducted by the Technical and Skills Training Division of a national training organization revealed that 60 percent of their technical training members had been in their positions less than two years and 70 percent have never had any specific training in instructional technology. The American Correctional Association has been working with the National Institute of Corrections over the past two years to develop a comprehensive "Train the Trainers" program for correctional staff trainers. We have trained over 800 trainers in the past 4 years. The purpose of this program is to assist the participants in developing the knowledge, skills and attitudes necessary to be a professional correctional staff trainer.

Workshop Design

The learning experiences in this program incorporate a philosophy of "learning-by-doing" in a highly concentrated format. In preparation for a workshop, participants are often asked to devote time to the selection of materials reflecting the needs of their own work settings. In simulated individual and team environments, they then apply the principles being learned to these materials to design and complete products translatable to each person's work situation.

A wide variety of programs will be offered in 1985-86 including:

- Let ACA Train Your Trainers
- Managing Stress in Corrections
- Crisis Intervention and Hostage Negotiations
- Stress-Reduction Techniques for Inmates
- Proposal Writing for Corrections
- Fire Emergency Planning
- How to Develop Policies and Procedures
- Legal Issues Training
- Emergency Evacuation Procedures
- Managing Community Corrections Facilities
- Dealing with the Mentally Ill Offender
- Suicide Prevention

On-Site Workshops

The Association also conducts on-site training programs in the content areas listed, as well as Report Writing, Management and Supervisory Training, and Communication Skills. These programs are designed to be delivered on-site for state and local departments of correction at a greatly reduced rate. The sponsor of an on-site training workshop provides a training site and a minimum number of participants. By using the on-site training model, departments of correction save travel and per diem costs for participants and gain the ability to train a large number of people.

Correspondence Courses

The Association offers two correspondence courses for the corrections professional. Both are four volume, self-instructional courses which provide basic instruction in accordance with ACA Standards.

The Correctional Officer Correspondence Course contains:

- Volume I—Basic Concepts in Corrections
- Volume II—Supervising Inmates
- Volume III—Security Procedures
- Volume IV—Special Inmates

The Correctional Supervisors Correspondence Course contains:

- Volume I—Basic Concepts in Supervision
- Volume II—Advanced Concepts in Supervision
- Volume III—Workbook: Applying Supervisory Techniques
- Volume IV—Legal Issues and Discipline

After completing each volume, participants are given a comprehensive examination. Each candidate who scores 80% or better on each test will be awarded a certificate of successful completion for 40 hours of in-service training. Graduates will also be eligible for 3.6 Continuing Education Units from Eastern Kentucky University.

Further information can be obtained by writing or calling Liz Gilbert, Staff Assistant, or William J. Taylor, Manager, Training and Technical Assistance, American Correctional Association, 4321 Hartwick Road, College Park, MD 20740. Phone (301) 699-7650.

MEETINGS SCHEDULE

Each year the American Correctional Association sponsors two major meetings—the Winter Conference in January and the Congress of Correction in August.

Both annual meetings provide a forum for setting national correctional policy and goals and for focusing on the challenges to the corrections field. Both also offer workshops that are as varied as all the sectors of the Association's membership and that appeal as well to non-ACA members in the corrections field and also to many interested citizens. In addition, tours of local correctional facilities are available, and there are exhibit booths displaying the latest correctional products and services.

The Congress also offers technical workshops and professional seminars. The prominent speakers at these workshops are leading experts in the field, and the tone is positive, proactive, and relevant. These professionals address the current problems, new developments, and major issues in the field from an active, dynamic viewpoint.

By participating in these annual meetings you can support the continued professional growth of the ACA and also strengthen your professional relationships with decision makers from the field.

Always Specify the Best. PEERLESS RESTRAINING DEVICES

New Hinged Handcuffs These patented handcuffs are the ultimate in restraint and provide maximum safety to the restraining officer. New hinge design prevents prisoners from using muscles and tendons to tamper with locking mechanism. When handcuffed properly, prisoners are unable to escape, even with key in hand. Hinged Handcuffs, permit cuffing in a cross arm position, preventing "stepping" through to bring hands from back to front. Particularly effective in transporting prisoners and in high

security risk situations. Independent tests approved by the IACP (International Association of Chiefs of Police) have determined that these handcuffs exceed Federal standards. Can accommodate a 25% larger wrist than standard cuffs and uses a standard handcuff key.

Leg Irons

Peerless leg irons are adjustable shackles built for years of service. They are made to the same rigid specifications as U.S. government approved Peerless handcuffs. They have 19 positive locking positions to a 10" circumference and a strong 15" chain to prevent the prisoner from running. All steel construction with nickle finish and new, improved double lock. Two standard handcuff keys are furnished.

The Case of the Overcrowded Prison:

It was a dark and desperate hour.

"Thirty new commitments are on the way, and we need space fast," the tough administrator demanded. The boys from the governor's office scowled. While the correctional officers stood watch, the restless men clamored.

Then the guy from Gelco Space stepped boldly to the fore.

"More space in less time for less money with our mobile and modular units," he promised. "Dormitories, kitchens, standard or custom designs. Even an entire prison. Whatever you need. And you can buy, rent, or lease at any of the more than 80 sales and service locations."

"Simple addition," the astonished group concluded as a ray of sunlight pierced through the walls. One shout rang out: "Reach for the phone. Call Gelco Space, 1-800-523-7918."
